-

| Projects

AllMart: Full-Stack Web App Demo

Vanilla JavaScript • TailwindCSS • Node.js/Express • API Integration

- Engineered a full-stack grocery style application demonstrating enterprise grade UI behaviors and dynamic data rendering
- Integrated the Web Speech API to enable voice search, improving accessibility and user experience
- Built custom API endpoints and implemented scalable front-end structure

Public Safety Web App (In Progress): UI Focused Application

React • TailwindCSS • REST APIs • MongoDB

- Developing a UI for searchable safety information with real-time data fetching
- Designed around WCAG principles to ensure readability, clarity, and accessible navigation
- Built using component driven design for future scalability

PokéHub: Interactive Management Interface

Vanilla JavaScript • Figma • Responsive UI • TailwindCSS

- Built a user dashboard for managing and viewing dynamic Pokémon data
- Implemented interactive UI elements (forms, modals, dynamic lists)
- Focused heavily on clean UI/UX patterns

| Relevant Experience

WordPress Client Website — UI/UX & Frontend Lead (Team Project)
Algonquin College

- Collaborated on a live client WordPress website using custom themes, plugins, and Gutenberg blocks.
 - Translated client requirements into functional, responsive UI/UX and implemented content structures.
 - Demonstrated rapid learning and adaptation in PHP and WordPress development
-

| Other Work Experience

Sales Associate – Dulux Paints, Ottawa, ON
May 2024–Present

- Gather and clarify customer requirements, providing accurate product recommendations and solutions to meet client needs.
- Demonstrate strong time management and reliability by consistently meeting performance standards while balancing employment with full-time college coursework.

Firefighter — Jamaica Fire Brigade, Kingston, Jamaica
February 2017 - September 2023

- Developed elite teamwork, communication, discipline, and decision making skills in high pressure environments
- Leadership and problem-solving experience directly transferable to fast-paced development teams
